

Submitting an Article to the African Journal of Governance and Development

Log into your account with the user name and password then start a new submission by clicking the **New Submission** button on the right side of the screen. You will be taken to Step 1 of a 5-Step process to upload and describe your submission.

Step 1

In **Step 1** you will provide preliminary information about your submission.

To begin select the appropriate section for your submission (e.g., article, review, etc.). If you aren't sure which section is appropriate, make your best guess.

Read and agree to the statements in the submission checklist by checking each box. Include any comments for the editor, read the journal's privacy statement, and then click the **Save and Continue** button to move to **Step 2**.

Step 2

On **Step 2**, a window will open allowing you to upload your submission file.

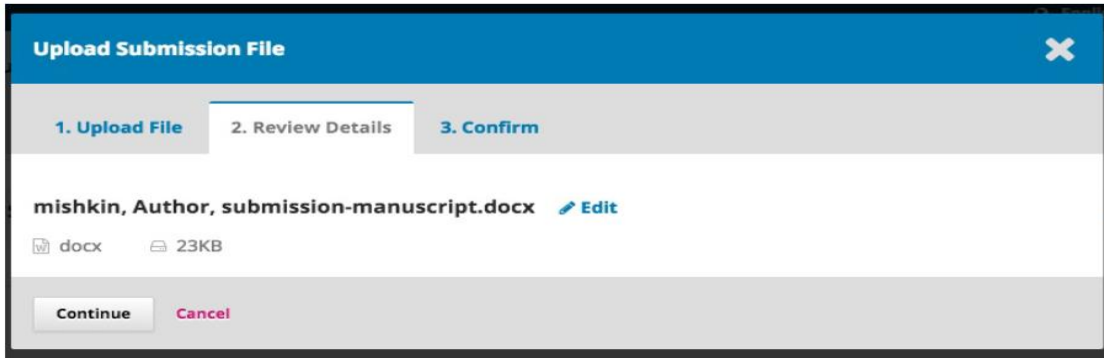

The screenshot shows a dialog box titled "Upload Submission File" with a close button (X) in the top right corner. Below the title bar is a progress indicator with three steps: "1. Upload File" (highlighted), "2. Review Details", and "3. Confirm". The main content area features a dropdown menu labeled "Article Component *" with the placeholder text "Select article component". Below this is a legend box containing the text "* Denotes required field". At the bottom of the dialog are two buttons: "Continue" and "Cancel".

First, you **MUST** select an Article Component. This lets the system know whether the file is the body of the manuscript, an image, a data set, etc. **This must be selected before your file will upload.**

The screenshot shows the same "Upload Submission File" dialog box, now in the "2. Review Details" step. The "Article Component *" dropdown menu is now set to "Article Text". Below the dropdown is a dashed-line box containing the text "Drag and drop a file here to begin upload" and an "Upload File" button. The legend box with "* Denotes required field" and the "Continue" and "Cancel" buttons remain at the bottom.

Once you've made that selection, you can then upload your first file. It is important to note that you can only upload **one** file at a time. Additional files can be uploaded later in the process. Typically, this first file will be the body of your manuscript. Hit the **Continue** button once the file uploads.

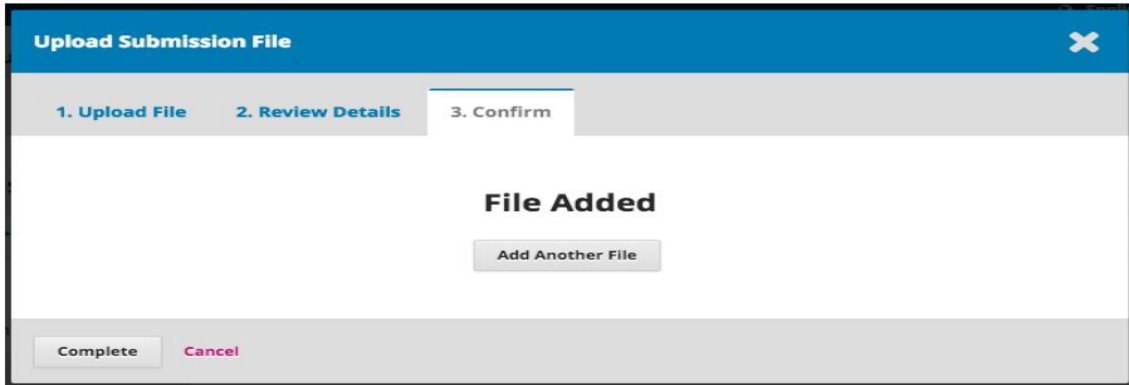

After uploading the file, you will be asked to review the name of the file. Use the Edit link to make any changes.

Click the **Continue** button.

Next, you have the option to repeat the process to upload additional files (e.g., a data set or an image).

Once you have finished uploading all of your files, click **Complete**; this will close the upload window.

You will be brought back to the *Submit an Article* screen where you will see the files you've uploaded. If you need to make changes, expand the blue arrow to the left of your file and make any changes using the *Edit* link.

Click 'Save and Continue' to move to Step 3.

Step 3

On **Step 3**, you will be asked to add more information about the submission, including the title of the submission (broken down into prefix, title, and subtitle), the abstract, and scrolling down.....

The screenshot shows the 'Submit an Article' interface with the '3. Enter Metadata' step selected. The form includes the following fields:

- Prefix:** A text box containing 'An'.
- Title *:** A text box containing 'approach for externalization of expert tacit knowledge'.
- Subtitle:** A text box containing 'Using a query management system in an e-learning environment'.
- Abstract *:** A rich text editor containing the text: 'E-learning or electronic learning platforms facilitate delivery of the knowledge spectrum to the learning community through information and communication technologies. The transfer of knowledge takes place from experts to learners, and externalization of the knowledge transfer is significant. In the e-learning environment, the learners seek subject expertise to clarify their subject queries, and a learner query can be routed to an expert for externalization of expert knowledge provided the learner knows the subject expert or the expertise group. However, learners new to e-learning systems are not aware of the expertise group to which the query should be sent, which results in time delays, non-response, inaccurate solutions and loss of knowledge capture. Several models have been proposed to resolve this task, but thus far, these efforts have focused completely on returning the most conversant people as experts on a particular topic to retrieve valuable knowledge. To address this problem, we propose an approach that externalizes the tacit knowledge of a subject expert by creating a dynamic query handling system that automatically transfers a user query to the best subject expert.'

.....any additional contributors.

This section displays a table of contributors and includes a text area for keywords.

Name	E-mail	Role	Primary Contact	In Browse Lists
Apostolos Mishkin	mishkin@mailinator.com	Author	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

Keywords

Save and continue Cancel

The 'Add Contributor' modal form contains the following fields:

- Name:** Three text boxes for 'First Name *' (containing 'Frederic'), 'Middle Name' (empty), and 'Last Name *' (containing 'Serletis').
- Contact:** A text box for 'Email *' containing 'seletis@mailinator.com'.
- Country:** A dropdown menu with 'Canada' selected.

You can add more contributors (e.g., co-authors), by clicking the **Add Contributors** link. This will open a new window with fields to enter their information. Hit **Save**, and the new contributor will appear on the screen.

Enter the keywords.
